

Model: ELGHT

Electric Black Glass Hot Tops

Models: EGLHT and GWT

Simply plug these elegant units into a 13 amp socket, leave for a few minutes to heat up and they are ready to use. Our black glass Hot Tops are ideal for displaying food in dishes or platters, great for buffets, banquets, hospitality boxes and bars.

Our ELGHT is a robust GN1/1 warmer designed to keep food warm with a surface temperature around 90°C to hold food at around 70°C. This unit is fitted with a mat type element which gives a very even heat distribution across the surface and ensures no hot or cold spots to keep food displayed in prime condition.

The GWT range of warmers come in 3 sizes, 600mm x 400mm, 800mm x 400mm and 400mm x 400mm giving you flexibility depending on the size of the function. They are all fitted with an adjustable thermostat. The Hot Tops are light to transport and easy to set up and clean - ideal for events on the move or more permanent buffets.

Primeware have a wide selection of dishes to make an eye-catching presentation.

Electric Black Glass Hot Tops

Models: EGLHT and GWT

Model: GWT

GWT units have an adjustable thermostat from 30-90°C are constructed from stainless steel, fitted with a mat type element with a black glass display top. The black electric cable is fitted under the unit.
