Chefs love them!

Unbreakable, presentable,  
tough, lightweight dishes  
for cooking and serving  
hot food.

FLEXEPAN is non-stick and can be used to bake, freeze, reheat and serve all in the same pan for many years. It's lightweight, the GN1/1 size weighs under 1.5Kg, over 3x lighter than ceramic and with its stainless steel frame keeps its shape.

These dishes are 100% food-grade silicone & FLGB approved.

From freezer to oven, -18°C to +230°C bakes evenly, quickly cool to touch, dishwasher safe, and stain resistant. Use with silicone utensils and our cutter.

No more dented corners from stainless steel pans or chipped edges from ceramics or porcelain, these pans will last and last, providing excellent value.

Oven to table. Cook-chill-freeze-bake. -18°C to +230°C.

—

Dishwasher safe, stain resistant, odour free, stackable.

—

A selection of polycarbonate lids are available for these dishes for display stacking and transporting.

—

Reinforced with stainless steel for rigidity and to stack easily. Dishes drop in a GN well or sit on a countertop.

—

Durable, unbreakable non-stick dishes. Ideal for use with silicone or non-stick utensils.

—

Cutter for use with Flexepans.  
Code 10053 Size: 370x120x35mm

“ All the staff love using them, they also look great out on the counters, we are all very impressed with the quality of them. Easy to clean, lightweight and they look so good even the kids made comments that they are trendy. I would recommend them to all the schools and have been given the go ahead to order more! ”

Julie Whelan from Patcham High School in Brighton
