

HOT TILES

INNOVATIVE TILED INSERTS
DROP IN A BAIN MARIE WELL
TO CREATE COLOURFUL
PLATFORM FOR FOOD DISPLAY

HOT TRAYS

TILED TRAYS TO SIT ON A SOLID TOP COUNTER

Lose the look of black ceran or stainless with our attractive Hot Trays.

Place food directly onto the heated surface or choose from our incredible selection of dishes.

Available in tough ceramic in our best-selling batik design. Or choose the popular wood effect topper. There's also a carving option with spikes or a carving board.

Slim line and sturdy - backed with 18 gauge stainless steel. Each Hot Tray comes with a silicone heat proof mat to prevent slippage. Easy to clean.

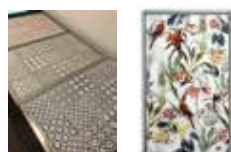

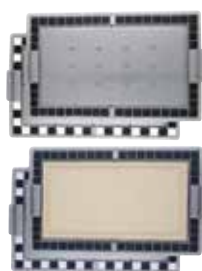

The Hot Tiles are available in hard wearing ceramic, slate and thermally toughened glass. Food can be displayed in dishes which are then placed directly on the Tile surface.

The Tiles are slim-line, backed with 18-gauge stainless steel with six rounded feet on the base to keep them in position.

Ideal for hot, cold or ambient counters. The Tiles just drop in the well and absorb the ambient temperature

CERAMIC HOT TILES including Batik & wood effect designs
